Cookies Statement

All Star Logistics Limited's websites, online services, interactive applications, email messages, and advertisements may use "cookies" and other technologies such as pixel tags and web beacons. These technologies help us better understand user behavior, tell us which parts of our websites people have visited, and facilitate and measure the effectiveness of advertisements and web searches. We treat information collected by cookies and other technologies as non-personal information. However, to the extent that Internet Protocol (IP) addresses or similar identifiers are considered personal information by local law, we also treat these identifiers as personal information.

All Star Logistics Limited and our partners also use cookies and other technologies to remember personal information when you use our website, online services, and applications. Our goal in these cases is to make your experience with All Star Logistics Limited more convenient and personal.

Knowing your contact information, hardware identifiers, and information about your computer or device helps us provide you with better service.

If you want to disable cookies and you're using the Safari web browser, go to Safari preferences and then to the privacy pane to manage your preferences. On your mobile device, go to Settings, then Safari, scroll down to the Privacy & Security section, and tap on "Block Cookies" to manage your preferences. For other browsers, check with your provider to find out how to disable cookies. Please note that certain features of the All Star Logistics Limited website will not be available once cookies are disabled.

As is true of most internet services, we gather some information automatically and store it in log files. This information includes Internet Protocol (IP) addresses, browser type and language, Internet service provider (ISP), referring and exit websites and applications, operating system, date/time stamp, and clickstream data.

We use this information to understand and analyze trends, to administer the site, to learn about user behavior on the site, to improve our product and services, and to gather demographic information about our user base as a whole. All Star Logistics Limited may use this information in our marketing and advertising services.

In some of our email messages, we use a "click-through URL" linked to content on the All Star Logistics Limited website. When users click one of these URLs, they pass through a separate web server before arriving at the destination page on our website. We track this click-through data to help us determine interest in particular topics and measure the effectiveness of our client communications. If you prefer not to be tracked in this way, you should not click text or graphic links in the email messages.

Pixel tags enable us to send email messages in a format customers can read, and they tell us whether mail has been opened. We may use this information to reduce or eliminate messages sent to clients.
